Backend Developer | FastAPI & PostgreSQL | REST APIs (JWT, AES) | AI Enthusiast

PROFESSIONAL SUMMARY

Python Backend Developer | FastAPI & PostgreSQL Specialist. Focused on building secure, asynchronous APIs and scalable architectures. Experienced in implementing robust security protocols and managing full-cycle backend deployment. Proficient in rapid UI prototyping with Streamlit and deploying production-ready solutions.

TECHNICAL SKILLS

Backend: FastAPI, SQLAlchemy,Pydantic V2,Request Models, Streamlit

Databases: PostgreSQL, NeonDB

Security: JWT, OAuth2,AES Stateless Auth, Data Encryption,Bcrypt,Middleware

DevOps: Docker, GitHub Actions (CI/CD), Railway,Vercel, Alembic Database Versioning,

Architecture: REST APIs, Microservices, Scalable System Design Repository Pattern, Async Processing, CI/CD, API Documentation (Swagger)

KEY PROJECTS

NeonSecureVault – Enterprise Security System | Live Demo Built centralized JWT/OAuth2 authentication to eliminate vulnerabilities and redundant logic. Designed a modular security wrapper with middleware for streamlined access control. Deployed on Railway with Alembic migrations for production stability and seamless schema updates.

Social Media Backend API Resolved N+1 query issues via optimized SQLAlchemy, significantly boosting response times.Implemented comprehensive documentation for seamless integration has social media like features.

EduManage Pro – Student & Course Management System Engineered a FastAPI-driven management platform featuring dashboard for real-time educational analytics. Developed a secure Admin Panel with full CRUD functionality for streamlined course enrollment and student record tracking with PostgreSQL.Built a responsive frontend using Tailwind CSS and Jinja2, ensuring high-performance data rendering and cross-device compatibility.

SKY-Pulse-API-Project Engineered a robust pipeline to process live atmospheric and air quality data via OpenWeatherMap APIs. Developed a high-performance FastAPI and Streamlit dashboard featuring advanced visualizations. Integrated automated processing to ensure low-latency updates and consistent reporting.

EDUCATION

Bachelor of Science in Computer Science (BSCS) | NUML FSD 2022–2026

Intermediate in Computer Science (ICS) | Punjab Group of Colleges | Grade: A 2020-2022

Matriculation The Educators School | Grade: A+ 2020

CERTIFICATIONS

- Python Essentials 1 – Cisco Networking Academy
- Modern AI Certificate – Cisco Networking Academy]
- (Backend & AI Chatbot Development) – Saylani Mass IT Training [In Progress]
- Microsoft Education Partner (Associate)
