Backend Developer | FastAPI & PostgreSQL | REST APIs (JWT, AES) | AI Enthusiast

PROFESSIONAL SUMMARY

Python Backend Developer | FastAPI & PostgreSQL Specialist. Focused on building secure, asynchronous APIs and scalable architectures. Experienced in implementing robust security protocols and managing full-cycle backend deployment. Proficient in rapid UI prototyping with Streamlit and deploying production-ready solutions.

TECHNICAL SKILLS

Backend: FastAPI, SQLAlchemy,Pydantic V2,Request Models, Streamlit

Databases: PostgreSQL, NeonDB

Security: JWT, OAuth2,AES Stateless Auth, Data Encryption,Bcrypt,Middleware

DevOps: Docker, GitHub Actions (CI/CD), Railway, Alembic Database Versioning,

Architecture: REST APIs, Microservices, Scalable System Design Repository Pattern, Async Processing, CI/CD, API Documentation (Swagger)

KEY PROJECTS

NeonSecureVault – Enterprise Security System | Live Demo

- Built centralized JWT & OAuth2 authentication eliminating security vulnerabilities and redundant auth logic
- Designed modular security wrapper with middleware for streamlined access control across endpoints
- Deployed on Railway with Alembic migrations for seamless schema updates and production stability

Social Media Backend API

- Resolved N+1 query problem through optimized SQLAlchemy queries,significantly improving response times
- Implemented comprehensive Swagger/OpenAPI documentation for seamless API integration and testing
- Containerized with Docker ensuring consistent development and deployment environments

AI-Powered E-commerce API

- Reduced API latency using Redis caching and implemented WebSockets for real-time inventory tracking
- Engineered a RAG-powered Chatbot using Vector Databases for context-aware product recommendations.
- Architected an AI interaction layer with automated CI/CD pipelines for seamless deployment.

EDUCATION

Bachelor of Science in Computer Science (BSCS) | NUML FSD 2022–2026

Intermediate in Computer Science (ICS) | Punjab Group of Colleges | Grade: A 2020-2022

Matriculation The Educators | Grade: A+ 2020

CERTIFICATIONS

- Python Essentials 1 – Cisco Networking Academy
- Modern AI Certificate – Cisco Networking Academy]
- Full-Stack Development (Backend & AI Chatbot) – Saylani Mass IT Training [In Progress]
- Microsoft Education Partner (Associate)
